DASH

CONNECTED, CHARGED, AND ON THE GO.

Put dead zones and dead batteries in the rearview mirror with weBoost Dash.

Whether you're jamming to your favorite tunes, navigating new surroundings, or joining a work call from the road, strong cell signal and a charged device are critical. Dash delivers both in one sleek, compact solution designed for drivers who demand reliable connectivity on their everyday adventures.

PRIORITY CONNECTIVITY

Boosts cell signal for a single device, delivering clearer calls, faster data speeds up to 5G, and fewer dropped connections from departure to destination.

LIGHTNING-FAST CHARGING

Built-in Magnetic Qi2 Wireless Charger keeps your device powered without being tied to a cradle—charge while you boost.

EFFORTLESS INSTALLATION

Ultra-secure magnetic mount installs and removes in seconds. No drilling or complicated setup required.

CLAMP-FREE MAGNETIC CRADLE DESIGN

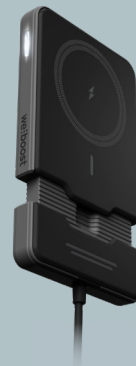

Mount on your dash, set in the cupholder or passenger seat, or pair with aftermarket magnetic mounts.

DASH

471082

MAGNETIC CRADLE WITH Qi2 CHARGING

Focus signal boosting power for a single device while keeping device charged.

MAGNETIC MOUNT OUTSIDE ANTENNA

Attach and disconnect Dash's outside antenna quickly. No drilling required. Sleek design matches all vehicle types—from luxury sedan to minivan.

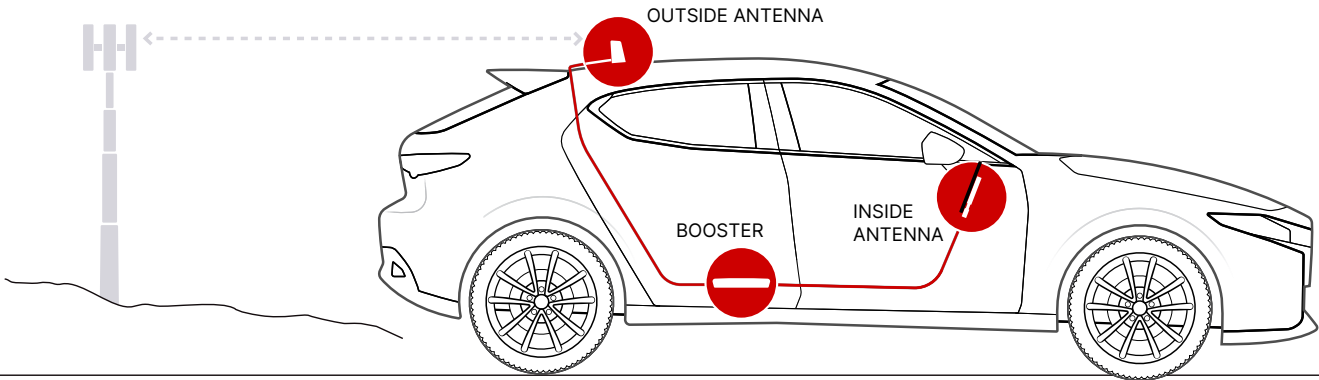

PROUDLY DESIGNED &
BUILT IN ST. GEORGE UT

weBoost was born in the rugged Southern Utah desert, where cell signal disappears behind red rock walls and fades under wide open skies. Every cell signal booster we sell is designed, built, and supported in our state of the art St. George facility. When you choose weBoost, you're not just choosing the original cell signal booster, you're supporting American innovation and strengthening communities in the heart of the Desert Southwest.

SPECS

MODEL	USERS	FREQUENCIES	MAX GAIN	MSRP
471082	Single-User	Band 12/17 700 MHz Band 13 700 MHz Band 5 850 MHz Band 4 1700/2100 MHz Band 25/2 1900 MHz	23 dB	\$199.99

HOW IT WORKS

OUTSIDE ANTENNA
The outside antenna communicates back and forth with nearby cell towers.

BOOSTER
The booster amplifies any cell signal it receives from the outside antenna.

INSIDE ANTENNA
The inside antenna broadcasts these signals for a single device.

- INSIDE THE BOX**
- Signal Booster
 - Signal Boosting Magnetic Charger
 - Metal Adhesive Ring
 - Outside Antenna
 - Adhesive Disk
 - Power Supply
 - Velcro® Adhesive Strips

- WIRELESS CHARGING COMPATIBILITY**
- iPhone 13, 14, 15, 16 series
 - Samsung Galaxy S25
 - Google Pixel 10
 - HMD Skyline
 - New phone models released after 2024
- Note: Non-wireless charging devices will still receive full signal boosting benefits.

IDEAL USE-CASE

Daily commuters tired of dropping calls at the same spots every day.
Delivery drivers and gig workers who depend on reliable connectivity for their livelihood.
Road warriors seeking faster data speeds for navigation, streaming, and work calls.
Anyone who wants to eliminate dead battery anxiety while maintaining strong signal strength.
Drivers of any vehicle type—from luxury sedans to minivans—looking for seamless integration.
