

WEBOOST PRODUCTS SUPPORT THE LATEST IN 5G TECHNOLOGY.

OUR MOST POWERFUL DIY SOLUTION FOR SMALL BUSINESS OWNERS.

Introducing weBoost's newest high-performance commercial-grade amplifier.

weBoost **Office 200 Omni** is a powerful amplifier solution for small-to-medium businesses looking to immediately improve cell signal.

- Enables everyone inside the business to enjoy fewer dropped calls, uninterrupted texts, better voice quality, improved hotspot capability, faster internet speeds, better streaming, and more.
- Is 5G compatible and improves cell signal on all U.S. carrier networks, including Verizon, AT&T, T-Mobile, UScellular, and more.
- Is backed by an industry-leading 3-year manufacturer's warranty and a 30-day money-back guarantee.
- Meets all FCC guidelines and won't interrupt or harm any cell carriers' signals to and from the cell tower.

OFFICE 200 OMNI

75 OHM 471047

50 OHM 472047

Key Features

Commercial-grade amplifier solution designed for offices, retail establishments, restaurants, warehouses, and other small businesses.

Recommended to improve cell coverage up to 10,000 sq. ft.*

Color LCD touch screen for greater control and usability.

All components needed for DIY installation are included.

* Coverage claims are based on estimates and can vary depending on factors such as outside signal strength, building construction, and building layout. Wilson Electronics' Office products are the best performing cell signal boosters for smaller buildings. For larger buildings exceeding 15,000 square feet, we recommend considering the WilsonPro product lineup for optimal in-building cell signal performance.
